MICO, Incorporated Celebrates 60th Year In Business

NORTH MANKATO, Minn. — MICO, Incorporated, a leading designer and manufacturer of hydraulic components, controls and brake systems, celebrated its 60th year in business with an open house event, Sept. 22 and 23, at its facilities in North Mankato, Minn.

Welcoming customers, distributors, vendors and fellow business community members, the two-day event featured a barbecue, plant tours and a golf tournament.

“In today’s business climate of rising customer standards, high competition and company consolidations, it’s becoming more and more rare to see individual organizations that stand the test of time,” said Dona Rehome, MICO Marketing Coordinator. “A successful business takes many ingredients, but the most important of these is people. This milestone is a testament to those people behind MICO – from 1946 to today – and their dedication, innovation and strong work ethic.”

Since 1946, MICO, Incorporated has been on the leading edge of technological innovation in hydraulic components, controls and brake systems primarily for heavy duty, off-road commercial and industrial applications. Today, the company is a completely integrated design, manufacturing and sales operation. Its use of computer-aided machinery and lean processes makes it an industry leader worldwide.

For more information, contact MICO, Incorporated, 1911 Lee Boulevard, North Mankato, MN 56003, call (507) 625-6426, fax (507) 625-3212, send e-mail to micomail@mico.com or visit the company’s Web site at www.mico.com.
