MICO, Incorporated Adds New Distributors in Australia, New Zealand

NORTH MANKATO, Minn. — **MICO, Incorporated**, a leading designer and manufacturer of hydraulic components, controls and brake systems, announces the signing of distributor agreements with **Custom Fluidpower** and **Hydraulic Specialities Ltd.** The two new distributors have been added to strengthen MICO, Incorporated's presence in Australia and to establish a sales base in New Zealand.

Custom Fluidpower is one of the largest hydraulics, pneumatics and electronics solution providers in Australia. The company serves several industries, including agriculture, aerospace, exploration, industrial plant, marine, mobile, mining, and material handling. Staffed with a dedicated team of 140 skilled personnel including design engineers and on-call hydraulic technicians, Custom Fluidpower has nationwide coverage of Australia, with branches in Brisbane, Emerald, Mackay, Melbourne, Newcastle, Singleton, Naval Base and Perth. Custom Fluidpower also has an outstanding reputation for developing custom solutions for specific needs, a customer service philosophy the company shares with MICO, Incorporated.

Hydraulic Specialities Ltd. (Hyspecs) is the premier supplier of hydraulic equipment in New Zealand. Providing hydraulic system design, component sales and service, the company has a wide range of application experience, including forestry, marine, agriculture, industrial plant, OEM machinery, transport, and construction machinery.

MICO, Incorporated

1911 Lee Boulevard (Zip Code 56003-2507) / P.O. Box 8118 / North Mankato, MN U.S.A. 56002-8118
Web site: www.mico.com / **E-mail:** micomail@mico.com / **Tel:** 507.625.6426 / **Fax:** 507.625.3212

Hyspecs covers all of New Zealand, with a north island facility in Auckland and a south island location in Christchurch. The company offers hydraulic training seminars to customers and is fully equipped to build systems to customers' specific requirements before performing on-site installations.

Since 1946, MICO, Incorporated has been on the leading edge of technological innovation in hydraulic components, controls and brake systems primarily for heavy duty, off-road commercial and industrial applications. Today, the company is a completely integrated design, manufacturing and sales operation. Its knowledge of brake system design in conjunction with state-of-the-art machinery and manufacturing processes makes it an industry leader worldwide.
